

Accident Insurance

Accidents happen. On average, there are 13 unintentional injury deaths and approximately 2,650 disabling injuries in the US every hour. While you can count on your insurance to cover medical expenses, it doesn't always cover indirect costs that can arise from a serious, or even a not-so-serious, accidental injury.

If you enroll in our new Accident Insurance plan, you'll receive a payment from Unum if you have a covered accidental death, dismemberment, dislocation/fracture, burns, concussion, dislocations, coma, initial hospitalization confinement, hospitalization confinement, intensive care stay, ambulance service, medical expenses, outpatient physician's treatment, and more.

Coverage is available for you and for your spouse and dependents, as long as you have purchased coverage for yourself.

Every year, each family member who has Accident coverage can also receive \$50 for getting a covered Be Well Benefit screening test, such as an annual exam, pap smear, colonoscopy, immunizations, and more.
